

Soft-Guard P-Trap Protection Covers

Description

The Buckaroos Soft-Guard Protection Cover System is a white gloss, soft vinyl plasticol P-Trap Piping and Valve Cover System used to protect people and insulate piping underneath lavatories or sinks.

The basic Soft-Guard Protection Cover System Kit Pack includes the two piece P-Trap cover, two angle valve covers and self locking nylon straps to secure the Soft-Guard cover into place. A lavatory Offset Drain accessory piece is also available.

Features and Benefits

- The Soft-Guard Protection Cover System features a unique tail-piece that turns with the rotation of the P-Trap piping. This gives it the flexibility to fit virtually any P-Trap piping configuration.
- The Soft-Guard Protection Cover System also features two angle valve covers to give complete coverage of the hot and cold water lines.

Applications

The Soft-Guard Protection Cover System is used in hospitals, schools, churches, hotels, restaurants and public facilities with handicap lavatories.

Guide Specifications

All lavatory P-Trap, hot and cold piping, and valve assemblies should be covered by the Buckaroos Soft-Guard Protection Cover System, as manufactured by

Buckaroos, Inc. • Indianapolis, IN 46235
